

CONTAINERIZE THE APP

Team ID	PNT2022TMID48781	
Project Name	SKILL / JOB RECOMMENDER APPLICATION	

The screenshot displays a Windows 10 desktop environment. The primary focus is the Visual Studio Code (VS Code) application, which is open with a Python project named 'Flask with Jinja2 and SQLAlchemy'. The Explorer sidebar on the left shows the project structure, with 'app.py' selected under the 'src' directory. The main editor window shows the code for 'app.py', which imports Flask, Jinja2, and SQLAlchemy, and defines routes for a home page and a student management page. The bottom panel shows the 'TERMINAL' with the command 'flask run' and its output, indicating the server is running on http://127.0.0.1:5000. The Windows taskbar at the bottom shows various icons and the system clock.
